ACAT Approval

All incoming residents must be assessed by the Aged Care Assessment Team (ACAT) for approval as a residential care recipient requiring residential care, permanent or respite. Government regulations prevent anyone being provided with these care services if they do not have a current ACAT approval. To be eligible for approval as a residential care recipient, a person must have significant care needs that can be appropriately met through the provision of a particular type of care. The person is eligible if:

- The person is assessed as having significant physical, medical, social or psychological needs that require the provision of care; and
- Those needs cannot be met more appropriately through general care services.

In determining whether these criteria are met, the ACAT will consider the person's medical, physical, psychological and social circumstances. For further information regarding ACAT approvals, contact the My Aged Care Information Line on 1800 200 422.

Assets & Income Assessment

At the time of being assessed by the Aged Care Assessment Team, forms for assets and income testing will be provided to the person being assessed. These forms should be completed and submitted to Centrelink and/or The Department of Veterans Affairs (whichever is applicable), who will then provide a Statement of Assets & Income for Residential Aged Care Providers. A copy of this statement should accompany an application for residency.

Where there is a waiting list, the application will be kept on file until a vacancy is offered and accepted, or advice is received from the applicant or their representative to remove the application from the waiting list.

What happens when a vacancy occurs?

When a vacancy occurs, the Centre Manager considers all applications based on selection criteria and the ability of the centre to meet that person's needs prior to offering a vacancy to the applicant. Selection criteria includes, but is not limited to:

- Whether the vacancy is in a single or share room
- The applicant's sex if in a share room
- The applicant's care needs and the availability of the resources to meet those needs

The Admissions Manager will then contact the applicant or their representative nominated on the Application for Residency form to offer the applicant a bed.

Should I consider an Enduring Power of Attorney, Guardianship or Administration?

Enduring Power of Attorney

An enduring power of attorney is a legal agreement that enables a person to appoint a trusted person – or people – to make financial and/or property decisions on their behalf. An enduring power of attorney is an agreement made by choice that can be executed by anyone over the age of 18, who has full legal capacity.

An enduring power of attorney can be operational while the person still has capacity but may be physically unable to attend to financial matters.

The benefit of an enduring power of attorney is that unlike an ordinary power of attorney, it will continue to operate even if the donor loses full legal capacity. An enduring power of attorney does not permit an attorney to make personal and lifestyle decisions, including decisions about treatment. The authority of the attorney is limited to decisions about the donor's property and financial affairs.

To cancel (revoke) the enduring power of attorney the donor must have full legal capacity. It is recommended that the revocation is made in writing. If the donor has lost capacity, an application must be made to the State Administrative Tribunal to decide if the enduring power of attorney should be cancelled (revoked).

Administration Order

An administrator is appointed by SAT to make financial and legal decisions in the best interests of someone not capable of making those decisions for themselves. An administrator may be given authority to decide specific matters such as the sale of assets, payment of debts or investment of money. Not only do they manage these financial issues but they also pay all the daily bills, purchase clothes and they must keep detailed accounts.

Enduring Power of Guardianship

An Enduring Power of Guardianship is a legal document that authorises a person of your choice, to make important personal, lifestyle and treatment decisions on your behalf should you ever become incapable of making such decisions yourself. This person is known as an enduring guardian.

An enduring guardian could be authorised to make decisions about things such as where you live, the support services you have access to and the treatment you receive.

An enduring guardian can not be authorised to make property or financial decisions on your behalf. The person you appoint as your enduring guardian must also be 18 years of age or older and have full legal capacity.

Guardianship Order

A guardian is appointed by SAT to make personal medical and or lifestyle decisions in the best interests of someone who is not capable of making those decisions for themselves.

These decisions often relate to work, living arrangements or medical treatment. The decision – making authority of a guardianship order may be limited to specific areas such as medical and accommodation (limited order) or apply to all areas of the person's life (plenary order).

You can obtain advice about an enduring power of attorney, guardianship or administration order through a solicitor, a community legal centre, or the Office of the Public Advocate.
